## Goldenberg's

Seventh Street, Around to K

## Odds and Ends Sale

Any housekeeper can readily understand the necessity for cleaning up odds and ends on housecleaning days. All of next week is Housecleaning time at Goldenberg's—and we've gone through the store with a broom, sweeping clean every stock of its accumulations of small lots and broken lines left from a rousing season's business.

By the end of the week we must know exactly how much stock each department has after six months' business and how much money we've made.

Every department manager aims to have his shelves as bare as possible, in order that he may buy heavily of spring goods. It is easy to understand why this is the greatest bargain time of the year.

Prices are lowest at Goldenberg's all the year 'round—but now lowest by more than the usual ratio.

## BERI MEDICINAL FRENCH OLIVE OIL

The proof of the efficacy of advertising a good merchandise in The Times is the fact that SINCE LAST SUNDAY so many trial orders and subsequent practical orders for dozens of this oil had to be filled that a resupply from France has to be called for. The same result is reported from New York, demonstrating that for medicinal effect a less fluid salad oil is to be eschewed and the proper medium is found, in the Beri Medicinal Oil, the light pressing from small olives. The jury of the 1900 Paris Exposition awarded this oil the highest premium "hors concours." Chemist J. Gondon, of Nice, before United States Consul A. Platt, declares "this oil is free from any admixture whatever." Imported only in 4 oz. bottles. Sold at 25 cents by the sole distributor.

### SAVE THE CHILDREN.

Scarlet fever is unknown in countries where cow's milk is not used as food, hence milk from unsanitary stables may contain the poison producing it. Milk is also known to have caused epidemics of DIPHTHERIA, TYPHOID, and other ENTERIC DISEASES. A proper and simple precaution consists in

### SCALDING MILK

(Don't boil it) for children and invalids—and scalding will not affect its digestibility. After scalding, keep cool and covered.

A regular diet for children on condensed milk is inadvisable.
